

VR-1122

EXPRESS VALUECLEAR VOC

PRODUCT DESCRIPTION

VR-1122 Express ValueClear VOC is a high-solids 2K clearcoat designed for use with VOC Value Activators, delivering accelerated and consistent curing performance. Formulated for both spot and multi-panel repairs, it offers excellent flow and levelling finishes. Engineered for versatility, it delivers durable and high-gloss topcoats, with reliable results in most bodyshop environments.

Cost effective, flexible in application

FEATURES

- 01 VOC compliant 2K clearcoat.
- 02 2:1 standard mixing ratio plus 5% thinner.
- 03 Easy application across a wide range of booth conditions.
- 04 Can be applied over Cromax basecoats.
- 05 Polishing properties are enhanced.

Product mix

Mixing ratios with special agents are available in the productmix table on ChromaWeb and in the specific TDS.

DIN 4: 16 - 19 s at 20°C

50 - 60 μm 2 coats
45 - 55 μm 1.5 coats

Theoretical coverage

490 - 495 m^2/l at 1 micron dry film thickness

Due to different activator characteristics and different mixing ratios of the ready-to-use mixture in some TDS versions, the theoretical coverage calculation may vary.

Note: The practical material consumption depends on several factors, e.g. geometry of the object, surface formation, application method, spray gun setting, inlet pressure, etc.

Clean after use with a suitable solventbased guncleaner.

Remarks

- Material has to be at room temperature (18-25°C) before use.
- Allow additional time for preheating up to panel temperature.
- Surplus ready for use material should not be returned to original can.
- Close can of hardener tightly immediately after use, as this product will react with humid air and water and lose its hardening effect.
- Cromax VR-1130 can also be used for activation under specific circumstances, but is not the preferred option.
- Can also be used over activated Centari Basecoat.
- For Semi-Flexible systems 10% 805R Flexible Additive can be added to the base material. Activator and Thinner ratios remain equal.

Consult Safety Data Sheet prior to use. Observe the precautionary notices displayed on the container.

All other products referred to in the refinish build up are from our Cromax product range. System properties will not be valid when the related material is used in combination with any other materials or additives which are not part of our Cromax product range, unless explicitly indicated otherwise.
